About RapidHost

RapidHost has been delivering internet hosting, backup and email services since 1999 and has a base of over 600 customers. RapidHost offers a complete 24x7 managed service environment from secure data centres located in the UK, as well as added-value services related to hosted solutions.

Technical support is provided by 'real people' on a 24 hour basis sharing a common technical management platform.

Our service range includes:

- Domain Management
- Server Hosting
- Managed Systems Hosting
- FileMaker Services
- Data Archiving Services
- Co-location Services
- Specialist Support

About HostFileMaker

HostFileMaker is one of the UK's largest and most established FileMaker hosting providers for users and developers of FileMaker applications.

With over a decade of FileMaker hosting experience HostFileMaker provides organisations with a 'best of breed' hosting service powered by RapidHost.

For more information, go to www.hostfilemaker.com

"HostFileMaker was the obvious choice for us. They knew the FileMaker environment very well and provide similar services to other companies like us"

MF Software Solutions

iPhone & iPad

Our hosting works fantastically well with FileMaker Go for iPhone and iPad
